SEEKING EXCELLENCE

APRIL 2022 – FEBURARY 2023

FOUNDER
ANDREW J. GOSAIN

CO-FOUNDER
EMILY PRAXADES GOSAIN

CHAIRMAN'S MESSAGE

I.WILLIAM

As we transcend from academic session 2022-2023 to 2023-24, we are grateful to God the Creator of this Universe and Jesus Christ for their permanent presence, unconditional love, grace and protection.

The scars of Covid confinement reflects in students behaviour and their thought processes. The human resolve in the past has proved its willingness to overcome exigencies. The significance of being human makes us respect all creatures, plants and nature who are also God's creation as we all emerge from the same source.

We pray for all Xavarians and others who wish to be seekers to open up unconditionally to receiving, in being willing mediums of God's creation and Will.

God bless and good health.

PRINCIPAL'S MESSAGE

PRINCIPAL
GEORGE S. SHEAR

The Newsletter as the name indicates is a diary of our students' achievements round the year. The past year's achievements are laid out and compared for the plan of the coming year. The latter as always, is aimed at transcending the heights of the past so that the progression at various levels is maintained and the heights gained in the past by the school, are not marred.

All round education consists of a lot more than what takes place inside a classroom. The experiences that come to the child while going to school and making purchases for his/her own use at school or elsewhere. The knowledge and humour that emerge while conversing with the storekeepers and vendors on their way to the school building together form the nucleus of their dutiful interaction which eventually amounts to the experiences and knowledge gained which adds up to the accumulated knowledge in the day, and the circle continues to circulate gaining momentum each week – never breaking the chain of continuity that propels the child's intellect proactively forward.

The school machinery i.e. the powers that control the school are firmly of the opinion that high academic qualifications are not the be all and end all of a teachers worth in a school. They must necessarily have strong personal qualities, leadership and teamwork, determination and flexibility, respect and consideration, confidence and self-belief. In addition to these qualities a strong ethic will take individual teachers far in their endeavours at school and elsewhere.

Since we are aware that much of our lives' successes are groomed by attitude rather than innate intelligence, we should increasingly use our strong personal qualities to further our educational aims in educational administration. This I'm sure will strongly support our efforts at producing well rounded students to take on the rigorous of the real world that await them.

APRIL 2022
